

ATB ASSOCIATE TO BACHELOR'S OPTION

INFORMATION SESSIONS

The Institute of Medicine has set a goal that by 2020, more than 80 percent of nurses will have bachelor's degrees.

CCBC's Associate-to-Bachelor's option helps achieve this goal. ATB Nursing students take courses concurrently at CCBC and one collaborating university. This allows students to complete their Bachelor of Science degrees within 2-3 terms after completing their CCBC Associate of Science degrees.

ATB Information Sessions

Attend one of the following information sessions to learn more about the ATB option offered by CCBC in collaboration with:
