NextGen NCLEX Summit - Introduction

Rebecca Wiseman, PhD, RN
Director, Maryland Nursing Workforce Center

PURPOSE

To introduce nursing faculty members to resources available to assist with the transition to NextGen NCLEX scheduled to begin in April 2023.

The Maryland Nursing Workforce Center is working with an Advisory Committee (members listed on your agenda) to

- Provide resources to plan, implement and evaluate your teaching and evaluation of students' ability to make clinical judgments
- Prepare nursing students to succeed on the NCLEX-RN exam including the NextGen questions
- With ultimate goal to prepare graduates for safe and effective practice

TODAY'S GOAL

To provide an overview of the various areas to prepare faculty and students for the transition to the NextGen NCLEX

OBJECTIVES

We hope that at the end of this summit meeting that you will be able to:

- Determine the use of a clinical judgment model in your program
- Consider implications from findings from statewide and national surveys
- Evaluate your readiness for infusing clinical judgment into the classroom
- Describe strategies for integrating clinical judgment into the clinical learning environment
- Describe strategies for integrating clinical judgment into simulated learning
- Outline issues for your school in testing and evaluation related to NextGen

KEYNOTE PRESENTATION

Getting Started: Teaching, Assessing, and Evaluation Student's Ability to Make Clinical Judgments

Diane Billings, EdD, RN, ANEF, FAAN
