

CONVERSATIONS IN GENETICS

a webinar series

MARCH 30 | 5 - 6 PM (EDT)

Focus on Educational Resources

Genetics and genomics understanding is advancing rapidly and changing how human health and disease are conceptualized, diagnosed, and managed. Nurses need to integrate these core concepts into their practices to lead changes that advance health in personalized healthcare and wellbeing.

Moderator:

Nicole Mollenkopf, PharmD, MBA, BCPS, BCPPS

Assistant Professor, Director of Interprofessional Education
Johns Hopkins School of Nursing

JOHNS HOPKINS
SCHOOL of NURSING

Featuring:

Kathryn Reuwer, MSN, RN
Nursing Instructor, Chesapeake
College/MGW Nursing Program

Nicklaine Paul, RN, BSN, CCM
Founder and Executive Consultant,
Sickle Care Solutions, LLC

#GeneticsGenomics
